Professional Summary

Associate Diploma in Information Technology graduate from the University of Bahrain and current Reboot01 student, with hands-on full-stack development experience from industrial training at Script Solutions. Built and tested web applications using Laravel, Next.js, TypeScript, PostgreSQL, Docker, and AI APIs, with experience across front-end, back-end, databases, debugging, version control, and deployment workflows.

Experience

Script Solutions | Industrial Training - Full-Stack Development

Jul 2026 - Aug 2026

- Completed industrial training in the Software Development department, contributing to full-stack web systems from development and database work through testing and deployment preparation.
- Worked with Laravel, Next.js, TypeScript, PostgreSQL, Docker, Git/GitHub, AI API integration, and local speech-to-text/text-to-speech modules.

Experience Projects

QLM | Educational SaaS Platform

Full-Stack

- School management SaaS used to manage students, teachers, courses, assignments, quizzes, grades, attendance, roles/permissions, and academic-year processes in one system. Tech: Laravel, Blade, Tailwind CSS, PostgreSQL, Docker, Git/GitHub.

Wordia | AI Website Builder

Full-Stack

- AI-powered website builder designed to help users create websites through AI-assisted workflows, reducing manual setup. Worked on the Next.js/TypeScript application, PostgreSQL data layer, AI API integration, Docker environment, and front-end/back-end development.

Mkateeb | Bookstore Management Platform

Full-Stack

- Bookstore platform used to support both online sales and day-to-day store operations, including catalog/search, cart and checkout, POS, inventory, orders, book requests, suppliers, purchasing, delivery/pickup, reviews, notifications, reports, and invoices. Stack: Next.js, TypeScript, PostgreSQL, Prisma ORM, Zod, and automated testing.

Education

Reboot01

Current Student

Software Development Program

University of Bahrain

Graduated 2026

Associate Diploma in Information Technology

Technical Skills

Web & Front-End: HTML, CSS, JavaScript, TypeScript, React, Next.js, Blade, Tailwind CSS

Back-End & APIs: PHP, Laravel, Next.js APIs, Node.js, REST APIs, AI API Integration

Databases & ORM: PostgreSQL, MySQL, SQLite, Oracle SQL, PL/SQL, Prisma ORM

Programming: Java, Python, C#

DevOps & Tools: Docker, Docker Compose, Git, GitHub, Vercel, Neon, VS Code

Other: Zod, Vitest/Jest, Testing & Debugging, Client-Server Architecture, Technical Troubleshooting, STT/TTS Fundamentals

Soft Skills & Languages

Soft Skills: Problem-Solving, Teamwork, Communication, Self-Learning, Attention to Detail, Time Management

Languages: Arabic: Native | English: Working proficiency
